

## „Thinking Out Loud - Nizzabeat“ - Promoinfo Song

With "Thinking Out Loud", Nizzabeat release an Ed Sheeran cover from 2014. The atmospheric title still has a great appeal to listeners today. As the first release from the Nizzabeat Chillout EP called "#BeachandChill", Sigrid Ristow with her discreet saxophone sound and clear vocals, as well as producer Uwe Thielker, focus here on the summery mix of tropical sound and reggaeton rhythms. A fresh and modern production that you will fall immediately in love with. A must for balmy summer days.
