

Press release - "Pøbel" releases new album "Lux Luminum" 2017!

Dressed in our historically correct 1470-clothes and armed with shawms, flutes, bagpipes, drums, fiddle, hurdy gurdy and lute, we bring the audience back in time aided by facts and stories of the instruments and melodies. If granted the opportunity, we happily put on the dancing shoes.

Pøbel have extensive experience with medieval markets both in Denmark, Sweden and Norway as well as cultural and historical events, church concerts and private events.

The orchestra consists of engaged, ambitious and professional folk musicians from both Denmark and Sweden. With our diverse knowledge of different genres **Pøbel** add to the music with each our own perspective and aim to give the audience a full experience with our knowledge of the instruments and the music as the cornerstones.

This Spring means the release of our first album "Lux Luminum" full of folklorical and well-arranged medieval tunes from both Scandinavia and other parts of the World.
