

# SIRIUS SINGULARITY

**Uwe Cremer**

**Thomas Rydell**

**Krautrock**, the experimental electronic music that appeared in Germany during the late 1960s, and gained popularity throughout the 1970s. Combine it with classical instruments and you will have the music featured on "Sirius Singularity" We have preserved the originality of vintage Krautrock, and at the same time added something new to it. We hope you will enjoy listening to our CD.

The material of this CD was composed and recorded during 2010 and 2011  
in Eskilstuna, Sweden, and Cologne, Germany.

*- Uwe Cremer and Thomas Rydell 2011*
