Inside Your Mind EP is 44Mind's debut EP on 19ᵗʰ Studio Records. This talented Ukrainian producer takes us on a mystical, deep inner self-journey through our minds. He reaches this with four deep, sensitive and mystical tracks that will elevate your soul out to the stratosphere. Fingers in the Noise joins in with a precious deep dub remix.

Poezija Belogo – On this track, 44 Mind takes us to an unknown place in the outer space. With phantasmagorical pads, deep kicks and magical drones he creates an environment of somewhat peaceful tension. If you are in need of answers, this will create a perfect mood to discover them.

Awakening – Perfect title for a track that will make your morning perfect. With it's lazy drums and slow movement, Awakening will make your day easier and more relaxed. Deep Sub, wandering cymbals and beautiful chords, this will make you in no rush of stretching your legs and arms. Only your soul.

Sfera – This track is just an experimental beauty. With its metallic pads, perfect fitted clicks and psychedelic voices, will make your mind travel throughout the infinite space. Just close your eyes and be prepared for the journey.

Time Warp – On this piece, 44Mind puts his flying shoes and delivers a rhythm driven track. With a deep 4/4 kick, rounded bass and subtle percussion in addiction to his sublime ambience he takes us on a highway journey to heaven.

Awakening (FITN remix) – On this remix, Fingers in the Noise grabs his delay equipment and delivers a beautiful dub techno remix. Full of ambience deep bass and heartbeat shaped rhythm this will drop beautifully on those sunny Sunday's afternoons sets we love.
