SHORT BIO

Everything has got its shadows and everyone lives with different mistakes and experiences from the past... DEAD ALONE take you on a musical journey down to the deepest abysses of the human soul.

The music of the band founded in 2004 ranges from grooving dark-death-metal to doom that is as heavy as lead. Between brute forced aggression and sinister atmosphere there is still enough space for thrilling melodies and deep lyrics. They earned a lot of positive critics and the title "Band Of The Month April 2010" on the webzine "Metalunderground.at". During april and june 2012 the third album "Ad Infinitum" was recorded in the Grottesque Studios (Arsirius, Cynicism) by Sebastian Moser. The guest vocals on "Downwards" were featured by Mick (Destiny).

Having played many successful shows with bands like Belphegor, Eisregen Dew-Scented, Lacrimas Profundere or Destiny and with the performance at Metalfest Austria 2011 and the Extremefest 2012, they strenghtened their reputation as a kick-ass live act. Dead Alone can expect a promising future.
