LabelName: no ties records
LabelCode: 24901

MURDERONE

„TOUCHED“

MURDERONE is a project which was born several years ago. After the release of their first album "**MURDERONE**" the band returned to the studio and got down to work out an even more impressive piece of music.

On this album **Sven Lüdke** and **Dennis Krüger** appear for the first time as additional songwriters and guitar players. The band developed it's own sound and style, and recorded ten songs showing MURDER ONE at their very best.

With the hard pounding opener "**In your mind**", followed by the up tempo song "**Angel of blood**", to the doomsday scenario "**# 3**" the album constantly surprises the listeners, musically and lyrically, and takes them on a journey into the dark depths of the human psychology.

"With his lyrics Frank sometimes exceeds the bounds of good taste."

The most extreme example is the song "**Feel**". The view of things from the sick mind of a rapist and serial killer.
