# NOISE CAPITAL

Ohne Leise gibt's kein Laut, ohne Ruhe keinen Lärm. Mit etwas mehr als diesem Wissen wurde NOISE CAPITAL im Jahr 2006 von drei erfahrenen Musikern gegründet. Luhk, Ranzi und Hofer haben ihre Egos entweder schon vor Jahren abgelegt oder nie besessen, wohlwissend, dass Musik mehr sein muss als nur die Verwirklichung eigener Eitelkeiten. Moderner, alternativer Rock, kompromisslos gespielt und arrangiert. Zusammen mit Texten, die in einer viel zu schnellen Zeit bewusst langsam zu Papier gebracht wurden. Diese Mischung brachte der Band in jüngster Zeit zahlreiche Platzierungen in den Top10-Downloadcharts verschiedener Musikplattformen, unter anderem Platz 1 in den mp3.de-Alternative-Charts.

"(...) Eine Songstruktur, die ausnahmsweise mal überrascht, ein Sound, der darauf aus ist, laut aufgedreht im Straßenverkehr andere Autos aus dem Weg zu schaufeln, und ein sexy Basslauf, was braucht man mehr? Ach ja, die Bandmitglieder, so schreiben sie, können ihre Instrumente erfolgreich von Bäumen unterscheiden. Prima, dann kann ja nix mehr schief gehen!" -- intro.de über 'These Be Your Gods'

NOISE CAPITAL produziert durchgehend. Egal ob im eigenen Studio oder zusammen mit erfahrenen Tontechnikern ganz woanders - die Band bringt das ganze Jahr über neue und alte, laute und leise, schnelle und langsame Songs zuerst zu Papier und dann auf Band. Die Arbeitswut der Band manifestiert sich in einer fast schon unüberschaubaren Anzahl an Liedern und Texten, die sich teilweise bereits wenige Stunden nach der Aufnahme der schonungslosen Kritik der Internetuser stellen.

Luhk, Ranzi und Hofer spielten mit unterschiedlichsten Bands und Projekten in Summe mehrere hundert Liveauftritte - NOISE CAPITAL ist das monumentale Konglomerat ihrer Erfahrungen. Die explosiven Konzerte, auf den Punkt gespielt und ohne Kompromisse dargeboten, sind mehr als nur die lose Aneinanderreichung unterschiedlicher Songs. Jedes Lied erzählt eine Geschichte mit teils dramatischen Wendungen, der tiefere Sinn ist immer vorhanden - und ganz bewusst nicht immer auf den ersten Blick ersichtlich. Dabei wird die Songdienlichkeit von Arrangements und Instrumentierung als oberstes Prinzip der Band hochgehalten: das Gesamtbild muss stimmen.
