

Nothing Waits are a punk rock band based in Teesside. Their sound is a mixture of simple punk rock song structures, heavy riffs and melodic vocals.

Formed in summer 2012, Nothing Waits take elements of punk, metal, hardcore and rock music and infuse them into heavy, catchy and energetic songs that you can mosh, dance and sing-along to. They write songs about making the most of your life and about experiencing every moment you live, no matter what your circumstances or troubles are.
