

PSIDERALICA

BIOGRAPHY

SENSUAL & AGONIZING VOCALS. MASSIVE GUITARS. HYPNOTIC BASES. ENRICHED INDUSTRIAL ROCK!!

THIS IS PSIDERALICA. Spanish band (Mallorca) industrial rock with metal guitars, electronic bases and some touches of pop. Founded in 2002 by guitarist **TONI KERNEL**, the band was finalists and winners in several national contests (belladurmiente.com 2005), and launched that year, its first full-length, "ENGEL DER NACHT".

Two years later, after several changes in the components group's, the lineup was established with an interesting change of direction: the incorporation as a new lead singer of **LADY MARIAN**, Toni Kernel's wife, who brought sensuality and new nuances to the voices of PSIDERALICA. In 2010, PSIDERALICA released their second album "NEOPHOBIA?" and **LS** joined the band on the synthesizer. The band consolidated in the industrial sound, where metal guitars and synthesizers blend with the enchanting voice of Lady Marian, who walks among pop, rock and melodic dark metal, with influences ranging from Nine Inch Nails or Rammstein, to Madonna.

After sharing the stage with Sôber in Mallorca (2012), returns **NAK**, original drummer of the band.

PSIDERALICA has performed live shows on the main Spanish cities, The Dark Mills Festival 2009 (London, UK), Spider's Web Festival 2010 and 2012 (Bristol, UK), and shortly in the Festival Costa de Fuego 2012 (Benicassim, Spain), with artists like Guns n' Roses, Marilyn Manson, Lacuna Coil, Paradise Lost, Nightwish, InFlames, etc.
