Stereopathy takes control of 19<sup>th</sup> Studio's sixth release with a couple of tracks where ambience and dub deep sounds are the gear box on this journey. 1Way and Sonitus Eco also join with two classy remixes.

**Lick of Life** – On this track, Stereopathy picks up some unique filtered delays and send us on a deep cruise trough the stratosphere. Heavy bass, deep kicks but always fluid with great percussion lines, the artist brings all the “techno” out of himself.

**Victoria Dub** – A more ambient sounding track with steady kicks, this piece is a perfect set for one of those days that despite being 11a.m. we wished it never ended...

**Lick of life (1Way remix)** – 1Way picks up what it was a deep slow track and gives it his own twist. With up-tempo kicks, rithymfull percussion he turns what was supposed to be a lazy piece into his very own blend of deep shaky track.

**Victoria Dub (Sonitus Eco remix)** – Sonitus grabs an already full ambient sound to turn it into a brilliant lifestyle soundtrack. With a bunch of twisted delays, deep bass, and noisy drones, Sonitus takes us on a even deeper journey that not all of us can travel.
