

„Vernissage“ - Pressinfo

T3wuFlair presents new single "Vernissage"

With "Vernissage," T3wuFlair creates an atmospheric track that explores the connection between art and music. The idea for this song emerged during a *Vernissage* and was specifically developed as a musical accompaniment for a related video. Calm electronic beats and spoken word elements enhance the exhibition's impact, creating a harmonious soundscape.

The minimalistic sound allows space for the visual component and emphasizes the meditative atmosphere of the exhibition. The track was produced and mixed by voerstmusic.de under the direction of Uwe Thielker in Dortmund.

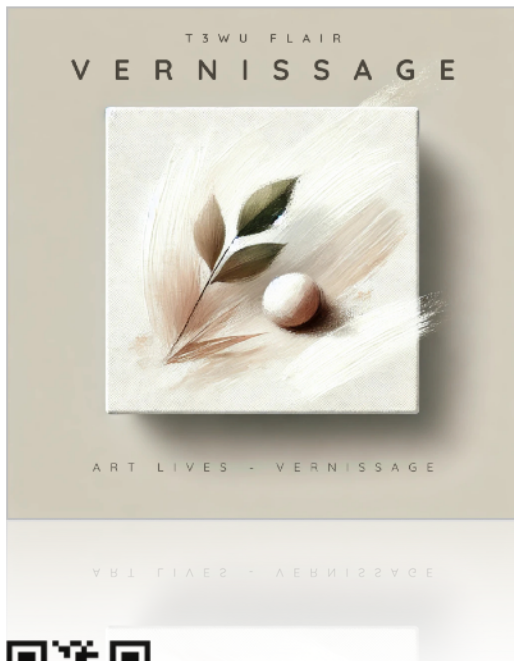

"Vernissage" is now available on all major streaming platforms.
