

# THE VAGOOS

THE VAGOOS are four young delinquents from a boring small town in the deep center of the conservative swamplands of Bavaria/Germany. From their early days on they've been hangin out at the rehearsal room, which used to be the bassplayer's living room located in the building complex of the local brewery, distilling their own vision of fast & rough Garage Rock n Roll: Loud and annoying Fuzz Guitars, slippery drippin wet surf strings, wild & out of control drums and a freaked out bass! The Vagoos never cared about any hip-scene shit - they leave you dancing and shouting your miserable soul out of your miserable body with a big grin on your face!

They shared international stages with The Monsters, Reverend Beat-Man, The Bonneville's, Juke Joint Pimps, James Leg, The Teamsters, Las Aspiradoras, The Devils and many other cool bands.
