

VANDANS

BIO

Emerging from the Austrian pop-punk scene VANDANS evolved their genre over the years with metalcore and hardcore influences forging their own unique sound.

Four kids came together back in 2006 and after several years of messing around the band finally started to release their own music in 2013 which opened the doors to Vienna's underground scene. After playing countless shows in Austria, Slovakia and Czech Republic the band released their debut album *Care on Reverse* in late 2015, followed by their standalone single *Your Name* introducing heavier influences to the fans for the first time. VANDANS took the mandatory break due to the pandemic and wrote their sophomore album *Archetype* which was released in 2022 marking a new chapter in their career. Starting out in small clubs the band has now shared the stage with big names such as The Ghost Inside, Knocked Loose, LANDMVRKS, Boston Manor and many more. VANDANS will release their new album „Everything That Won't Remain“ on February 28th 2025.

Vandans are: Philipp | Tobey | Flo | Yoshy
