ROAD TO NOWHERE

PRESSRELEASE

The combo from Darmstadt/Germany is strongly influenced by the sound of the 80s. The music is based on an analogue electronic sound, but is raised to a new level through the combination with traditional acoustic instruments and fragile to dirty vocals.

After the first full-length album «Once Upon A Time» in 2022, 耶YES斯SI巴BA releases the new single «Road to Nowhere».

The track is inspired by the last moments spent together with a loved one. Sometimes you share a road, then you part and maybe later you will join again – somewhere...
